Dear Mr Caring

Legal Proceedings: Charles Clover

We note from the press that you have begun proceedings through the courts to seek redress from Charles Clover and collaborators for damage to the reputation of your restaurants by statements made on the Fish2fork website.

The purpose of this letter is simply to offer moral support from the National Federation of Fishermen's Organisations and to offer to help your case in any way that is at our disposal.

In recent years as an industry we have suffered serious reputational damage through the selective and cavalier use of facts by Charles Clover amongst others on the fundamentalist wing of the environment movement. We, therefore, applaud your decision.

We are the national body for fishermen in England, Wales and Northern Ireland but our regional organisations equally stand ready to provide and evidential or other support that they are able to provide.

Please get in touch if we can help in any way.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Barrie Deas'. The signature is fluid and cursive, with a long horizontal stroke at the end.

Barrie Deas
Chief Executive
